*Business Administrator/
Board Secretary*

Palmyra Public Schools Technology Donations

Thank you for your generous offer of a technology equipment donation. Due to ongoing cybersecurity concerns and the ever-changing technological landscape we would request that you consider a direct financial donation to the district in lieu of equipment.

In light of the concerns above and as any technology hardware would need to be integrated into the district network, it is our policy to do our best to control the acquisition and integration process from start to finish.

Although a board of education is not required to honor requests as to how donations are applied, the Palmyra Board of Education has always made every effort to honor donor requests. As such, if you are inclined to make a technology donation to the school district, we would ask that it be a financial donation, accompanied by a short letter detailing your expectation as to how the funds should be utilized.

Thank you again for your consideration and for your support of Palmyra students.

Dave Ritchie
District Technology Coordinator
Palmyra Public Schools
